## ELECTRICAL RULES AND REGULATION

1. Electrical power supply is single-phase : 230V / 50Hz  $\pm$ 5%  
three-phase : 415V / 50Hz  $\pm$ 5%
2. All prices quoted include approval fees, installation, power consumption and standby maintenance.
3. Lighting connection :  
All lighting connectionwork must be done by the Organiser's official electrician. Without any exception, Exhibitors including those who provide their own lighting fixtures will be charged the lighting connection rate of MYR 160 (100 watts maximum per fixture).
4. Lighting connections are charged according to the number of tubes and bulbs lighted on the stand.
5. Light boxes are charged according to the number of tubes in each lights box, using the lighting hook-up or connection rate, whichever is applicable. Exhibitors are encouraged to use tubes or higher voltage (maximum 100 watts) wherever possible.
6. Exhibitors who provide their own lighting fixtures containing wiring installation must comply with the following procedures :
  - a) Submit detailed drawings of such installation to the Organiser for approval.
  - b) Show proof that such installation is carried out by a registered wiring contractor with relevant Class of Certificate of Registration issued by the Energy Commission of Malaysia.
  - c) Use materials approved by the Energy Commission of Malaysia. Non-compliance of the above would result in immediate termination of power supply and penalty charges.
7. The Organiser reserves the right to request Exhibitors to change any wiring installation, connection, etc. contained in lighting fixtures for safety reasons.
8. Exhibitor whose lighting fixtures are found to have been the cause of trips in power supply will be responsible for all re-energisation charges.
